INFORMATION DISCLOSURE STATEMENT

Sir:

In accordance with the requirements of 37 CFR §1.56, applicants submit the documents attached hereto to be made of record in the above-identified case. A listing of said documents on form PTO-1449 is also attached.

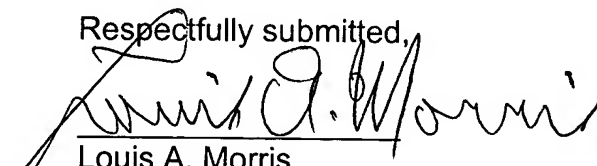

It is believed that the present Information Disclosure Statement is being filed prior to the mailing date of the first Office Action; therefore, no filing fee is believed to be required. If a filing fee is required, the Commissioner is hereby authorized to charge applicants' deposit account 01-1350 for the full amount of said fee.

Concerning Journal Reference Helv. Chim. Acta, 25, (in German) is directed to double hydroxides with two and three-valence metals such as magnesium-aluminum hydroxide, magnesium-iron (III) hydroxide, magnesium-mangan(III) hydroxide, cobalt(II)-iron(III) hydroxide, zinc-aluminum hydroxide, Mangan(II)-aluminum hydroxide, their X-ray diffraction patterns and lattice dimensions. This publication merely serves as background information on double hydroxides such as in anionic clays.

This Statement is not intended to represent that no better art exists. Applicants reserve the right to contest the applicability of the documents attached hereto as prior art in the event that any information is discovered which demonstrates that said documents do not qualify as prior art.

Consideration of the present Information Disclosure Statement is respectfully requested. The claimed invention is, however, deemed to represent a patentable departure from the teachings of the prior art.

Respectfully submitted,
